"WE CUSTOMIZE TRAINING FOR ORGANIZATIONAL NEED"

ROBOTICS

Mite is a unique learning platform for school and college students to understand the principles behind robotics and automation systems. Through integrated training in today's technology-driven world, it is important to prepare our students for the techie future. Imparting technical knowledge to young minds throughout their schooling can increase their ability to become more creative and innovative thinkers. Today's educational institutions have already recognized the importance of STEAM education and are teaching the basics of robotics and automation. These initiatives are opening completely a new world of exciting opportunities that the young minds would not have access to.

INFORMATION TECHNOLOGY

Mite group is a complete IT service provider based at Doha , Qatar offering customized services for software development, network technology support , Cloud administration, Security systems and corporate training. Mite offers the knowledge, expertise and experience of our technical team to undertake projects that complement existing systems and as well as new infrastructure to provide increased performance and added value to the company

Training Photos

A nighttime photograph of a modern cityscape in Doha, Qatar. The image features several tall, illuminated skyscrapers with unique architectural designs, including one with a curved facade and another with a prominent circular observation deck. In the foreground, a traditional wooden boat with a canopy is docked at a pier, its lights reflecting on the water. The sky is dark, and the overall atmosphere is urban and sophisticated.
